RELATED PRODUCTS

3/4" Frost Free Yard Hydrants

A low-flow alternative to the Kupferle hydrants.

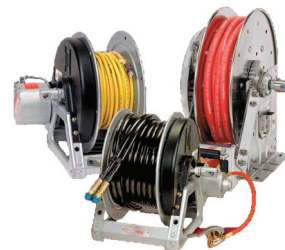

Booster Pumps

Increase your incoming pressure with a booster pump. Useful for washdown or overcoming the pressure loss of a very long hose.

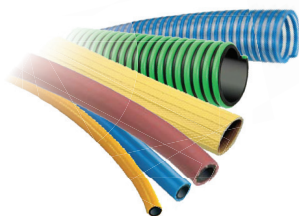

Camlocks

Quick and secure way of coupling hoses together.

Retractable Reels

Spring or motorized retractable hose reels. Also available for air or wire. Mountable onto machinery for emergency fire protection.

Industrial Hoses

Industrial grade suction, wash down, transfer, drag and high-pressure hoses.

Fire Hoses

Fire hose assemblies come in single wall or double wall and preassembled with your choice of fittings.

Fog Nozzles

High flow nozzle suited for fire protection or wash down. Adjustable spray pattern from a wide spray to a full bore flow.

Hydrant & Fire Hose Adaptors

We carry an assortment of adaptors to adapt several different fire threads to standard threads.
